## SECTION 1

### Sejarah Kopi

Sejarah kopi dimulai di wilayah Ethiopia, Afrika Timur, sekitar abad ke-9 Masehi. Menurut legenda, seorang penggembala yang bernama Kaldi pertama kali menemukan kekuatan kopi ketika dia melihat kambingnya menjadi lebih bersemangat setelah memakan buah kopi. Kemudian, Kaldi mencoba biji kopi itu sendiri dan merasakan efeknya. Dari sana, pengetahuan tentang kopi menyebar ke seluruh wilayah Timur Tengah dan kemudian ke dunia Islam melalui perdagangan.

Pada abad ke-17, kopi tiba di Eropa dan menjadi populer di kalangan intelektual dan sosialita. Seiring berjalannya waktu, perdagangan kopi melebarkan sayapnya ke seluruh dunia, membentuk kultur global yang berkembang pesat di berbagai budaya. Perjalanan kopi telah menyaksikan berbagai inovasi dalam pemrosesan, pembakaran, dan penyajian, menghasilkan beragam minuman kopi yang kita nikmati hari ini, mulai dari espresso hingga cold brew.

## SECTION 3

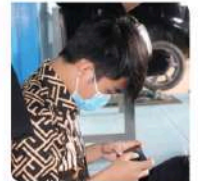

Sampurasun, Nama Saya Imam ariadi, Biasa dipanggil Imam. Saya adalah seorang mahasiswa teknik Informatika yang berfokus pada fullstack web developer. Hobi saya adalah menulis, entah itu menulis code, menulis quote, dan yang tidak bisa saya tulis adalah skenario Tuhan. Saya suka dengan hal yang terstruktur dan tidak mendadak.

"Kalimat warna - warni yang ditulis dalam sebuah code adalah sebuah seni yang terbentuk dari sebuah ide" - Imam Ariadi 2024

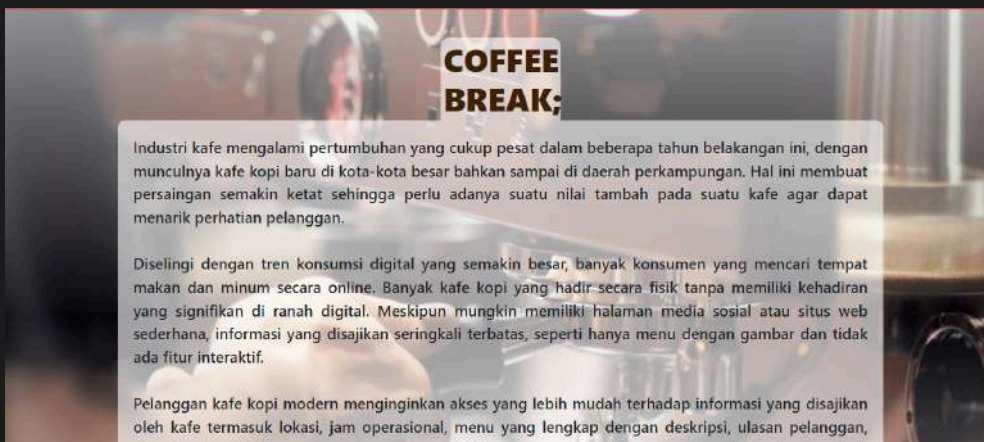

Halo, nama saya Muhammad Azka Naufal. Di dunia digital entah itu di dalam sebuah permainan atau sosial media, saya kerap disapa atau dikenal dengan username ts0ra. Salah satu hobi saya adalah koding mengkode, dengan koding mengkode saya bisa menuangkan isi pikiran saya dan memvisualisasikannya melalui sekumpulan teks dan membentuk sebuah objek yang saya inginkan.

"Pemikiran Anda menentukan jalur Anda. Tanamkanlah pola pikir

## SECTION 2

### COFFEE BREAK;

Industri kafe mengalami pertumbuhan yang cukup pesat dalam beberapa tahun belakangan ini, dengan munculnya kafe kopi baru di kota-kota besar bahkan sampai di daerah perkampungan. Hal ini membuat persaingan semakin ketat sehingga perlu adanya suatu nilai tambah pada suatu kafe agar dapat menarik perhatian pelanggan.

Diselingi dengan tren konsumsi digital yang semakin besar, banyak konsumen yang mencari tempat makan dan minum secara online. Banyak kafe kopi yang hadir secara fisik tanpa memiliki kehadiran yang signifikan di ranah digital. Meskipun mungkin memiliki halaman media sosial atau situs web sederhana, informasi yang disajikan seringkali terbatas, seperti hanya menu dengan gambar dan tidak ada fitur interaktif.

Pelanggan kafe kopi modern menginginkan akses yang lebih mudah terhadap informasi yang disajikan oleh kafe termasuk lokasi, jam operasional, menu yang lengkap dengan deskripsi, ulasan pelanggan,

## Description

This website is a simple web application with multi-user login features for admins and users. Users can register, log in, and access different dashboard pages based on their roles. The main features include login, registration, role-based dashboards, and logout. The login process validates the username and password, directing users to the appropriate dashboard. Registration allows new account creation after checking username availability. Logout clears the user's session and returns them to the login page. Login and registration forms are validated with JavaScript to ensure correct input before submission. Popup messages are displayed to inform users about errors or success in the login and registration processes.
